

SINGLE SPECIES

# TECH SHEET

## OKRA

Okra is most known by gardeners as a vegetable type crop, but it does also work very well as a cover crop also. This warm season broadleaf is extremely drought tolerant and thrives in the heat of the summer. This crop is also very good at digging deep and breaking compaction.

### AGRONOMICS

	Warm Season Annual
Seed Count	7,500 seeds/lb
Seeding Rate	10 lbs/acre
Seeding Depth	3/4 inch
Planting Time	Late May-Early August
Days to Maturity	60 days
